CCNA Routing and Switching:
Introduction to Networks

NDG Linux Essentials

LANGUAGES

- Polish - Native
- English - C1

SOFT SKILLS

- Openness and communication
- Ability to adapt to difficult situations
- Willingness to learn
- Punctuality

PROJECTS

Galactic Reborn

<https://galacticreborn.io>

Techstack I use: NextJS, React, TailwindCSS, TypeScript

Blockchain game project. I'm a part of the team, currently responsible purely for Frontend development. The project taught me how to work with a team, keep a clean workflow (Github, regular meetings) and stick to deadlines. Aim is to find funding and release the game.

Neo4j Movie DB API

<https://github.com/BartoszBrodowski/neo4j-moviedb-api>

Techstack: JavaScript, Express, Neo4j, Postman, JWT

Neo4j project of Express API that manages Movies database with use of JavaScript and JWT.

Java Projects

<https://github.com/BartoszBrodowski/java-uni>

Techstack: Java

Each directory introduces new concepts that I've learned during my "Object oriented programming" course. I've developed strong fundamentals of Java programming with concepts such as Encapsulation, Inheritance, abstract classes and proper OOP programming in Java.
